Seeing Stars

KBL Eyewear Collection Launches

You've seen the world through rose-colored glasses.

And though Edna next door does look better as a strawberry blonde, try the view through KBL, a new eyewear line launching with an array of kaleidoscopic aviators.

Take a look at Silver City — the most true to its roots of the bunch — in fresh surf green or light gold. Game Face, a sportier take, shapes up in sapphire metallic and fiesta red. Grab slick Star Guitar in classics like black or silver or get a load of the Some Ghost half-rim gradients (our favorite) in sage, shell pink, or ice blue.

While each pair is made a la luxury (milled construction using Italian acetate and Japanese metals; PC, distortion-free, shatter-resistant, UVA-, UVB-, and UVC-blocking lenses), the collection is priced for the people (\$110-\$135).

A sight for sore eyes indeed.

Available at Savannah, 706 Montana Avenue, between Seventh and Eighth Streets, Santa Monica (310-458-2095); Barneys Co-Op, 189 The Grove Drive, off West Third Street, The Grove, (323-761-5255). To see styles, go to kbleyewear.com.
